Dear Mr. Nelson

I tried to get a consent for the export of SLABs last year.

But I couldn't get it to my understanding.

I did not receive a consent letter from your office, though I sent emails and left messages to Ms. Tantum.

Therefore, I assumed that my request had been denied. I should have followed it through.

As a result, I did not try to export any batteries at all.

I overlooked the letter dated on Feb 13, 2013.

Thanks.

Regards,

Hanglae Cho
